Description:

Key features of the backpack:

Two large main compartments for organizing your belongings.
Two large front pockets for small items.

Back pocket for laptop or documents.

Large Velcro area for attaching patches.

Metal buckle for better fixing the backpack on the body.

Removable compression straps for adjusting the volume of the backpack.

Functional design and modularity

The compression straps on the sides make it easy to adjust the volume of the backpack.

When the main compartment is empty, you can fold and flatten the backpack, improving its stability and carrying comfort.

Practical pocket layout:

Main compartment - contains a zippered pocket, a mesh compartment (e.g.

Central compartment - built-in pockets of various sizes for towel, flaps, headphones or other necessities.

Top pocket - ideal for keys, phone and other small items.

Bottom front pocket - large enough for two pairs of shoes or gymnastic rings with straps, plus equipped with an organizer.

Special hydration pocket - for easy access to water during workouts or trips.

Dimensions: 50 × 30 × 30 cm

MOLLE system - unlimited expansion possibilities

The backpack is equipped with a military MOLLE system on the front and side, allowing for easy attachment of additional equipment. A great choice for athletes, outdoor enthusiasts and everyday use.

Note: The patches in the photos are for illustration purposes only and are not included with the backpack. If you want to personalize your backpack, you can purchase a wide selection of patches.

Description:

You can use them for many port activities. It is mostly used by crossfitters, rugby players, football players and many others.

Sandbags seal perfectly, so you do not have to be worry, that sand will spill out and will make a mess. You can fill them with sand as much as you want up to prescribed weight on sand bag. You can be sure that sandbag will last for really long time thanks to big quality material

Exercises with sandbags:

- Throwing them over your shoulder
- Holding them during walk from point A to point B
- Throwing them over different objects
- Sandbag hold for time

Sandbag will help you to feel stronger and b much fitter, what you will feel after few sessions.

We are offering them in three weights: 100 LB, 150 LB and 200 LB.

200 lbs = 90 kg, 150 lbs = 68 kg

100 lbs = 45 kg, 55 lbs = 25 kg
